WHITE BEAR TOWNSHIP IS A HEART SAFE COMMUNITY – On June 3, 2013, White Bear Township was designated a Heart Safe Community by the Allina Heart Safe Communities Program, which meant that the Township joined the effort to prevent death from sudden cardiac arrest by placing automated external defibrillators (AEDs) wherever people live, work and play. Heart Safe Communities help educate citizens about sudden cardiac arrest and improving heart health, raise money to place AEDs in the hands of emergency medical service fire and police personnel, and to make AEDs available in businesses, schools and other public gathering places, and train people how to use AEDs and perform CPR.

Below is a list of AED locations throughout the Township:
