YOU THOUGHT THEY WERE JUST LEAVES, WELL THINK AGAIN

– As you know, rainfall and stormwater runs through streets and gutters ends up in our lakes & streams. When the streets are lined with leaves, phosphorus is leached out of the leaves & becomes the nutrient-rich food that algae needs to grow in those lakes & streams. You can make a difference by just doing a few simple things:

- Mulch fallen leaves into your lawn with a lawnmower.
- Gather fallen leaves out of the street and storm drains.
- Time your raking to just before your trash/yard waste pick-up day to minimize leaves' time on the curb.

Also Remember:

- Republic Services, the Township's refuse and recycling provider, will pick-up yard waste at the curb on the day of your refuse pick-up through November 30th (weather permitting). Make sure you place leaves in compostable paper or plastic bags.
OR
- You can transport leaves to the Ramsey County Compost site on Sherwood Road. Hours of operation are Monday, Wednesday & Friday 11:00 – 7:00 & Saturday 9:00 – 5:00 & Sunday 11:00 – 5:00 – **Just a Reminder – the Paper Compostable Bags are NOT Accepted at the County Sites** if you use them to transport the yard waste you must dump them out and bring them back home.
