

**WHITE BEAR
TOWNSHIP**

**2016 – 2020
CAPITAL
IMPROVEMENT
PLAN**

Adopted: December 21, 2015

The Capital Improvement Program

Annually, White Bear Township devotes a large portion of the budget to capital projects. The large financial investment is required to maintain and expand public facilities and infrastructure. Ongoing service delivery can be assured only if adequate consideration is given to capital needs. If the Town fails to maintain its capital stock, facilities and infrastructure will deteriorate until costly, constant maintenance is required, services are threatened, and the community growth stagnates or even declines. Whether the Township is growing, stable, or losing population, it needs to plan and budget for capital assets carefully to maintain existing infrastructure and meet future demand. A Capital Improvement Program (CIP) is a tool that can help ensure that decisions on capital projects and funding are made wisely and are well planned.

What are a capital asset and a capital project? For White Bear Township a capital asset is defined as a new or rehabilitated physical asset that is nonrecurring, has a useful life expectancy of greater than three years and a cost of \$1,000 or more or is considered to be an asset for which control is desirable. A capital project is undertaken to acquire a capital asset. Examples of capital projects include construction of public buildings, major street improvements, or acquisition of vehicles.

A CIP is a multi-year plan, identifying capital projects to be funded during the planning period. The capital program identifies each proposed capital project to be undertaken, the year in which it will be started or acquired, the amount expected to be expended on the project each year, and the proposed method of financing these expenditures.

The CIP helps to build consensus on what are the most important projects, thus helping to ensure these projects get undertaken first. The CIP also provides a picture of future financing requirements, which will allow the Town to better align financial resources with future needs. Additionally, the CIP provides an important tool for growth management.

The CIP should not be confused with the capital improvement budget. The capital improvement budget represents the first year of the CIP. The capital budget is the Town's annual appropriation for capital spending and is legally adopted by the Town Board. The capital budget authorizes specific projects and appropriates specific funding for those projects. Projects and financing sources listed in the CIP for years other than year 1 (called the "out years") are not authorized until the annual budget for those years is legally adopted. The out years serve only as a guide for future planning and are subject to further review and modification in subsequent years.

Purpose of the CIP

The CIP serves a number of important functions for the Township, as described below.

A Formal Mechanism for Decision Making. A basic function of the CIP is to provide White Bear Township with an orderly process for planning and budgeting for capital

needs. Questions on what to buy, build, or repair; where and when to buy or build; and how much to spend are all dealt with during the CIP process. The Town Board and staff must agree on the policies that will shape the program, estimate capital needs, prioritize those needs, identify and schedule funding sources, implement projects, and monitor project delivery. All of these activities are organized through the CIP process.

A Link to a Long-Range Plan. The CIP serves as a link to the Town’s planning process and should be developed in concert with the comprehensive land use plan, strategic plan, or other long-range plans. Preparation of the CIP considers not only repair and replacement of existing infrastructure but also facilities that are expected to be needed in the future. Changing population and employment patterns, socioeconomic and demographic characteristics of community residents, and land use patterns may bring about the need for new roads, water and sewer facilities, public buildings, or other capital assets. In developing the CIP, these new demands are weighed against the need to maintain existing infrastructure, based on goals established through the Town’s planning process.

Financial Management Tool. An overriding consideration in developing the CIP is to prioritize current and future needs to fit within the anticipated level of financial resources. The CIP considers not only what the Township needs but, equally important, what it can afford. By explicitly recognizing the Township’s financial outlook and the revenues and financing mechanisms that will be available for the capital program, projects can be prioritized to ensure that the most important needs and goals of the Township are achieved. Moreover, better planning can be undertaken with regard to the scope and timing of capital projects. Developing a financially constrained CIP based on realistic estimates of revenues to be available enhances the ability of the CIP to serve as a planning and management tool rather than a wish list of projects that cannot be fully implemented.

A Reporting Document. The CIP document presents a description of proposed projects that will be undertaken over the five-year plan. This document communicates to residents, businesses, and other interested parties the City’s capital priorities and plans for implementing projects. It also includes the expected source of funding for projects, including use of bond proceeds, installment purchase contracts or other debt, reserves, and grant funding. Thus, the community has a better understanding of the Township’s plan for capital spending and can make decisions accordingly.

Advantages of a Capital Improvement Program

A CIP requires staff time for its development, implementation, and maintenance; however, the advantages of a CIP should not be overlooked. Some of the major advantages of a CIP are cited in the following paragraphs.

A CIP Focuses Attention on Township Goals, Needs, and Financial Capability. Through the CIP process, decision makers select projects that will be consistent with community goals and needs. As part of the process, the Town Board, Staff and citizens

consider the current and future outlook for community development and the services needed by residents and businesses. This outlook serves as a basis for determining infrastructure and equipment needs to be included in the capital program. An important aspect of developing the CIP is balancing the Town's needs with its ability to pay for them. The process thus focuses attention on the financial capability of the government over the long term. Consistency of projects with community goals and needs provides a way to select among competing projects for the limited financial resources available to the Township.

A CIP Builds Public Consensus for Projects and Improves Community Awareness.

An important component of the CIP process is the involvement of citizens in the selection and prioritization of projects. Public participation helps to build support for capital projects that are both popular and unpopular. The public gains a better understanding of community needs and capitals projects through the process and thus are more likely to support the capital program. Moreover, the CIP process serves to educate citizens on the capital costs associated with Town goals, such as economic development. Through the CIP process, the Town is able to gain greater insight into the costs residents are willing to bear for these activities. Once approved, the CIP document informs citizen groups, developers, and others of the Town's planned public improvements. These groups are then better equipped to plan their own activities and are less likely to pressure for funding of projects not included in the plan.

A CIP Improves Inter-/Intergovernmental Cooperation and Communication. A CIP enhances coordination of capital improvements among departments and agencies both within and outside the Township. As a result, fewer scheduling problems and fewer overlapping or conflicting projects are likely to occur. The CIP also serves to inform other local governments of planned capital activity, thus affording them an opportunity to coordinate related project funding and timing. By promoting intergovernmental communication, the CIP helps eliminate project duplication efforts. Capital projects therefore can be planned in conjunction with other government units to best serve the interests of the community as a whole rather than the interest of the Town.

A CIP Avoids Waste of Resources. With its multiyear focus, capital improvement programming helps to avoid costly errors resulting from citizen opposition to projects, failure to anticipate linkages with other projects or activities, or insufficient funding. Because capital projects are considered over several years, the Township is better able to forge consensus on the need for projects before funds are spent. The multiyear focus also encourages consideration of how different phases of a project must be scheduled, given available funding, in order to complete the project as planned. Finally, the CIP allows the Town to anticipate future facility needs and to develop a financing approach that meets those needs.

A CIP Helps to Ensure Financial Stability. By anticipating the fiscal resources that are necessary to pay for capital projects, the CIP can help to promote financial stability. Capital projects are prioritized and scheduled to fit within expected funding levels, thereby limiting the need for dramatic tax increases or unanticipated bond issues in any

one year. In addition, by systematically addressing capital needs, the Township is less likely to be faced with the need to divert resources from other programs to make unanticipated capital expenditures.

Evaluating Capital Projects

Often the Township will find that the list of potential capital projects and purchases far exceeds the available funding. Yet, choosing among them is likely to be difficult. Capital projects are proposed to support different Township goals and often benefit particular constituent groups. A methodology is needed both to pare down the list of projects to an affordable level and to balance diverse and sometimes competing community values and needs. The following project evaluation criterion was developed for this purpose.

All capital improvement projects and equipment purchases will be evaluated on the criteria below with a priority factor of 0 to 5, with a priority factor of 0 being not at all and 5 being a very high priority. Each evaluation criteria is weighted based on importance. The priority factor is multiplied by the weight factor to arrive at a criteria score. The scores are added together to achieve a priority ranking.

Public Health & Safety: Weight Factor of 1.50. Does the project or purchase improve the wellbeing of the general public? A priority factor of zero would be it does not affect the wellbeing of the general public and a priority factor of 5 would be it very much affects the wellbeing of the general public.

Employee Health & Safety: Weight Factor of 1.25. Does the project or purchase improve the wellbeing of Township employees? A priority factor of zero would be it does not affect the wellbeing of employees and a priority factor of 5 would be it very much affects the wellbeing of employees.

Regulatory Mandate: Weight Factor of 1.50. Is the project or purchase required by a Federal, State, or other governing body mandate? A priority factor of zero would be there is no mandate requiring the project or purchase and a priority factor of 5 would be there is a current mandate. A rating in between would mean there is a mandate that will take place but there is a time period before the Township must comply.

Frequent Problem: Weight Factor of 1.25. Are there frequent problems or issues that require the project to be completed? Problems could be that the street requires frequent patching or equipment needs repairs or the design of something causes frequent accidents. A priority factor of zero would be no problems, while a priority rating of 5 would be frequent problems or issues.

Ability to Finance: Weight Factor of 1.00. Does the Township have the ability to pay for the project or equipment purchase? A priority factor of zero would mean there is no funding available to finance the project or purchase and a rating

of 5 would mean the Township has the funds available to finance the project or purchase. Other items to consider would be if funds are not currently available, how easily would it be to fund the project in the future?

Cost of the Project: Weight Factor of 1.00. What is the total cost of the project or equipment purchase? The higher the cost of the project the lower the priority factor rating would be. For example a project costing \$5,000 may have a priority factor of 5, whereas a project costing \$5,000,000 may have a rating of zero.

Generates Fees or Revenues: Weight Factor of 1.20. By constructing the project or purchasing the asset can the Town generate funds? An example might be that construction of a gazebo in a park could generate rental of the park by the public thus bring funds into the Town's budget. Priority factor of zero would be no fees or revenues would be generated from the project or purchase and a rating of 5 would be a large amount of funds could be generated.

Generates Cost Savings: Weight Factor of 1.20. Does the project or purchase result in reduced expenditures for maintenance or repairs? For example repaving a street may result in reduced cost for patching material. The higher the cost savings the higher the priority factor would be.

Ongoing Operations Cost: Weight Factor of 1.00. Is there any ongoing future operation cost due to the project or purchase? For example, the construction of a new Township building would have annual electric and gas costs to operate the facility along with other operating costs. The priority factor would be a 5 for a project that has no impact on future operating costs and zero for a project or purchase that has a large future operating budget cost impact.

Age or condition of Existing: Weight Factor of 1.00. If the Township has an existing asset that is being replaced, what is the age or condition of the existing asset? A very old asset that is in very poor condition would have a priority factor of 5.

Public Benefit: Weight Factor of 1.10. Does the project or purchase provide any benefit to the general public? For example a street improvement project may provide better access to the area, which would be considered a public benefit, whereas the purchase of a public works pickup truck may not provide any public benefit. In the case of the example, the street project would receive a priority rating of a 5, whereas, the truck purchase would receive a zero priority rating.

Public Demand: Weight Factor of 1.25. Are the residents requesting the project be performed or the equipment purchased? For example the residents in an area of the Town may desire the purchase and installation of playground equipment in a park. A priority factor of 5 would be high public demand versus a zero for no public demand.

Synergy with Other Projects: Weight Factor of 1.10. Does the purchase or project enhance or influence other Township goals or projects? Projects or purchases that affect other projects or purchases would have a rating of 5 whereas, projects or purchases that stand alone would be rated zero.

Strategic Goal: Weight Factor of 1.05. Does the project or purchase meet a strategic goal of the Township? An example would be if the Township has a goal to increase park use and the project was to build a park shelter/warming house, that project may receive a priority factor of 5 for meeting this goal.

Comprehensive Plan Component: Weight Factor of 1.05. Does the project or purchase help achieve a component of the Town's Comprehensive Plan? An example would be if an area of the Township that was deemed Commercial/Industrial/Retail and the project was for the Town to replace utility lines with oversized commercial utility lines to the area, that project would be rated a 5 as a priority factor.

It's important to note that the evaluation criteria above is to be used as a guide and a project that scores low might still be included in a given year based on project affordability and how it fits in with relationship to other projects.

White Bear Township's Five-Year Capital Improvement Plan

The remainder of this document is the Township's five-year CIP. The next four pages is a list of all projects and equipment planned for the next five years and the revenue sources to fund each project or equipment purchase.

The rest of the document is the description of each project or equipment purchase proposed. These descriptions include the project name, priority ranking, project type, useful life, and the responsible department. This is followed by the project description and justification where the project or equipment purchase is described in detail. Next is the project costs (expenditures) and funding source section where each department/fund responsible for purchasing or paying for or funding the asset is provided. The next section is for describing any future operational impact the project or purchase will have on future budgets and/or where any other comments about the project or purchase can be provided. Future operational impacts which are projected to increase future expenditures are shown as positive numbers and those which will decrease future expenditures or provide additional revenue are shown in bracketed or as negative numbers. Finally there is the project or equipment purchase priority ranking calculation. These sheets are filled out and provided for each project or asset purchased during the next five-year cycle.

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

EXPENDITURES:		Priority						
Project Name	Page #	Ranking	2016	2017	2018	2019	2020	
Administration								
Replace Computer Servers	11	20.25			10,000			
Replace Desktop Computers & Monitors	12	20.25	5,000		3,000	1,000	6,000	
Replace Laptop Computers	13	20.25	2,500			1,000	2,500	
Software Upgrades	14	41.45	45,000					
Replace Paper Shredder	15	20.25					500	
Replace/Purchase Office Furniture	16	18.25	3,500	3,500	3,500	3,500	3,500	
Replace/Purchase File Cabinets	17	19.30						15,000
Elections								
Replace Voting Booths	18	27.65		5,000				
Town Buildings								
Replace/Purchase Cable/AV Equipment	19	18.70	1,000	1,000	1,000	1,000	1,000	
Replace Office Chairs	20	28.15			1,200		1,200	
Replace Office Carpet	21	31.60		30,000				
Replace Office Entrance Doors	22	36.55		25,000				
Repaint Administrative Office Interior	23	28.85	50,000					
Mill and Overlay/Reconst. Admin. Office Parking Lot	24	29.40				40,000		
Purchase Emergency Generator for Buildings	25	19.05			100,000			
Public Safety								
Replace Town Warning Sirens	26	42.25	20,000	20,000	20,000	20,000		
Public Works								
Replace/Purchase Speed Control Signs	27	33.00		10,000				
Replace T590 T4 Bobcat Tracks	28	24.75		3,500		3,500		
Replace Brush Chipper	29	33.15			45,000			
Replace Pickup Trucks	30	24.75		45,000	47,500	30,000		
Replace Single Axle Dump/Plow Trucks	31	28.60	275,000					
Replace Dump/Utility Trucks	32	27.25		85,000				
Replace Asphalt Roller	33	28.20	20,000					
Purchase Mini Excavator	34	24.55		65,000				
Replacement of Street Sweeper	35	34.65			260,000			
Replacement of Rounds Pickup Truck	36	27.50	38,000					
Purchase Stake Bed for Pickup Truck	37	13.95	3,500					
Replace Snow Plow Equipment	38	40.75	10,000	10,000	10,000	10,000	10,000	
Purchase/Replace 800 Mghz Radios	39	27.35	3,750	3,750	3,750	3,750		
Purchase Plasma Cutter	40	14.15	2,600					
Replace Public Works Fuel Tank Facility	41	45.00		40,000				
Purchase Dumpster for Hook Truck	42	19.35	5,500					
Construct Public Works Staging Area	43	18.25	35,000					
Improve Ice Dam Mitigation on Public Works Roof	44	20.75		25,000				
Road and Bridge								
Replacement of Street Name Signs	45	27.60				200,000

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Replace Desktop Computers & Monitors
Priority Ranking:	20.25
Project Type:	Computer/Software
Useful Life:	5 Years
Responsible Dept.:	Administration

Project Description & Justification:

Replace the various desktop computer units and monitors (when necessary) to maintain the most current available technology.

Expenditures	2016	2017	2018	2019	2020	Total
Capital Equipment Fund	5,000		3,000	1,000	6,000	15,000
Total	5,000	0	3,000	1,000	6,000	15,000

Funding Source	2016	2017	2018	2019	2020	Total
Capital Equipment Fund	5,000		3,000	1,000	6,000	15,000
Total	5,000	0	3,000	1,000	6,000	15,000

Operational Impact/Other Comments:

The replacement of desktop computers should not have an operational impact on the budget other than the annual equipment rental fee charged to the Administration and Public works Departments in the General Fund. The cost to replace a desktop computer is estimated at \$1,000 and a monitor \$300.

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Purchase Emergency Generator for Administration and Public Works Buildings
Priority Ranking:	21.80
Project Type:	Building Improvements
Useful Life:	20 years
Responsible Dept.:	Town Buildings

Project Description & Justification:

Purchase and install an emergency power generator for the Town's administration and public works building which would allow the buildings to function as an Emergency Operations Center in times of natural catastrophes, as recommended by the Ramsey County Emergency Manager.

Expenditures	2016	2017	2018	2019	2020	Total
Capital Building Fund			100,000			100,000
Total	0	0	100,000	0	0	100,000

Funding Source	2016	2017	2018	2019	2020	Total
Capital Building Fund			100,000			100,000
Total	0	0	100,000	0	0	100,000

Operational Impact/Other Comments:

There would be an annual operating and maintenance costs related to fuel to exercise the generator on a regular basis and annual preventative maintenance.

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Replace Town Warning Sirens
Priority Ranking:	42.25
Project Type:	Miscellaneous Equipment
Useful Life:	20 years
Responsible Dept.:	Public Works/Public Safety

Project Description & Justification:

Replace original early warning sirens purchased in 1984 with new sirens with new technology to improve warnings to residents. The Town would work with Ramsey County to purchase the correct activation devices to operate with the sirens.

Expenditures	2016	2017	2018	2019	2020	Total
Improvement Fund	20,000	20,000	20,000	20,000		80,000

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Replace Pickup Trucks
Priority Ranking:	24.75
Project Type:	Public Works Equipment
Useful Life:	10 Years
Responsible Dept.:	Public Works

Project Description & Justification:

Replace the Town's various pickup trucks used in every day public works operations. All trucks will be undercoated, have spray lined boxes, and seat covers. The pickups scheduled for purchase in 2017 and 2018 will have lift gates and snowplow equipment. The 2019 truck will have a toolbox.

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Replacement of Street Sweeper
Priority Ranking:	34.65
Project Type:	Public Works Equipment
Useful Life:	15 Years
Responsible Dept.:	Public Works

Project Description & Justification:

Replace existing sweeper due to it's age and ability to obtain repair parts. A new sweeper would provide better pickup of sweepings which in turn would improve storm water runoff (a MS4 permit goal). The MS4 permit requires sweeping in the spring and fall each year.

Expenditures	2016	2017	2018	2019	2020	Total

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Replacement of Rounds Pickup Truck
Priority Ranking:	27.50
Project Type:	Public Works Equipment
Useful Life:	5 Years
Responsible Dept.:	Public Works

Project Description & Justification:

Replace the existing rounds pickup truck, which is used daily to check on wells, lift stations, perform utility locates, inspections and water turn on and off requests. This vehicle is also used occasionally on evenings and weekends for emergency utility callouts. Since it is used the most and has most miles the replacement schedule is shorter than other vehicles.

Expenditures	2016	2017	2018	2019	2020	Total

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Purchase Stake Bed for Pickup Truck
Priority Ranking:	13.95
Project Type:	Public Works Equipment
Useful Life:	20 Years
Responsible Dept.:	Public Works

Project Description & Justification:

The stake bed would be used to transport water for watering trees and bushes, haul hydrant repair parts, catch basins, and equipment attachments to job sites. This would replace an existing pickup truck box which could be sold.

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	Water Tower Repainting - Hammond Road Tower
Priority Ranking:	24.75
Project Type:	Water Maintenance
Useful Life:	15 Years
Responsible Dept.:	Water

Project Description & Justification:
Repaint Hammond Road water tower including removal of rust spots if needed after evaluation.

Expenditures	2016	2017	2018	2019	2020	Total
Water Fund			970,000			970,000

Total	0	0	970,000	0	0	970,000
-------	---	---	---------	---	---	---------

Funding Source	2016	2017	2018	2019	2020	Total
Water Fund			970,000			970,000

Total	0	0	970,000	0	0	970,000
-------	---	---	---------	---	---	---------

Operational Impact/Other Comments:
Operational Impact will be very minimal, as the only possible saving could be the reduction of cleaning the tower in the future.

WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020

Project Name:	GIS Integration of Township Infrastructure
Priority Ranking:	30.35
Project Type:	Other Improvements
Useful Life:	15 Years
Responsible Dept.:	Water/Sewer

Project Description & Justification:

Town needs to start locating Township infrastructure, such as manholes, weirs, lift stations, hydrants gate valves, etc. with a GPS then add that information as a layer on the Ramsey County GIS base maps. This will allow the Town to maintain its infrastructure in the most efficient and prudent manner. Cost in 2016 includes possible software to enhance the GIS system.

Expenditures	2016	2017	2018	2019	2020	Total
Water Fund	25,000	12,500	12,500	12,500	12,500	75,000

**WHITE BEAR TOWNSHIP
Capital Improvement Plan 2016 Thru 2020**

Project Name:	Sanitary Sewer Lining in South Area of Town
Priority Ranking:	35.30
Project Type:	Infrastructure Improvements
Useful Life:	60 Years
Responsible Dept.:	Public Works

Project Description & Justification:

Insert a lining into the sanitary sewer mains in the South area of Town which was originally constructed in the 1960's. This project would be completed as part of a street overlay project. The lining would seal the existing mains eliminating infiltration of clean ground water into the system.

Expenditures	2016	2017	2018	2019	2020	Total
Sewer Fund	1,500,000					1,500,000
Total	1,500,000	0	0	0	0	1,500,000

Funding Source	2016	2017	2018	2019	2020	Total
Sewer Fund	750,000					750,000
Special Assessments	750,000					750,000
Total	1,500,000	0	0	0	0	1,500,000

Operational Impact/Other Comments:

Should reduce the possibility of sanitary sewer backups due to excess flows beyond capacity and sewer backups.
