

Utility Rates Update

Annually, the Utility Commission reviews the Town's utility rates. The goal of the Town's utility rates is to cover 100% of operation costs and 75% of depreciation. Cash balances of each fund may increase or decrease from one year to the next based on improvement projects funded by each fund. Below is a comparison of current and new rates. The new rates take effect 2019 - 1st quarter utility bill for service from January thru March. This bill will be mailed out in April and due May 10th.
